DT-SPHERE™ MEMBRANE COVER SYSTEM

INNOVATIVE MEMBRANE GASHOLDER COVER

Bringing water to life®

DT-SPHERE™ MEMBRANE COVER SYSTEM

Innovative Membrane
Gasholder Cover

THE PERFECT SOLUTION

Experience the optimal blend of high storage capacity, efficient mixing, and easy installation with the DT-SPHERE™ Membrane Cover System.

ENHANCED BENEFITS

No Restraining Cables

- Enjoy a streamlined design.

Proprietary Design

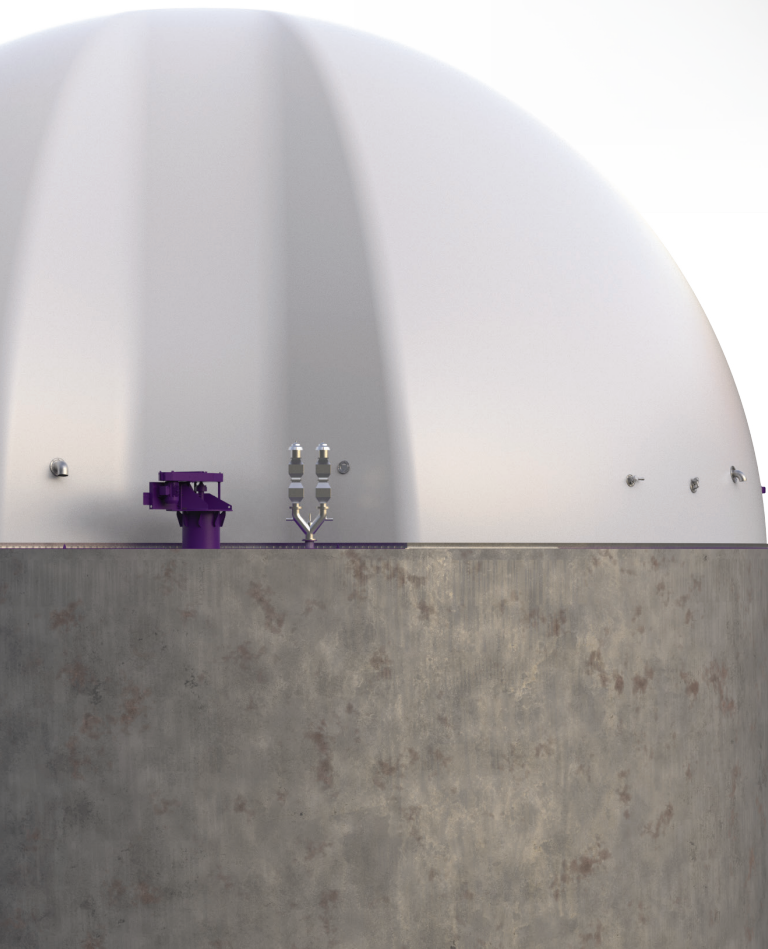

- No gas safety requirements on the air side.

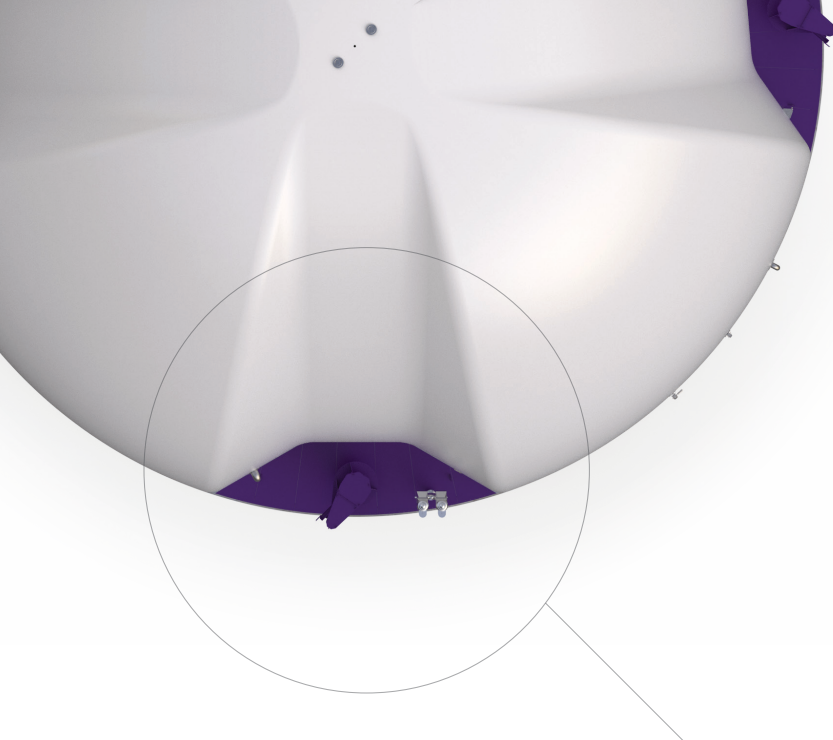

BABAA Compliant

- Meet industry standards effortlessly.

High-Velocity Draft Tube Mixing

- Achieve efficient, low-energy mixing.

DT-SPHERE™ TANK-MOUNTED MEMBRANE COVER DESIGN

Featuring the Combination
of Ovivo UltraStore™
Membrane Cover and
Eimix Roof-Mounted
Draft Tube Mixing

**A winning
combination
of high storage
capacity, low
energy mixing
and ease of
install.**

**Note that
traditional
designs
do not
support
mixer
installation
on top.**

ADVANTAGES OVER TRADITIONAL STEEL COVERS

Increased Gas Storage Capacity:

- Maximize your storage potential.

Rapid Installation:

- Save time with a quicker setup process.

Cost-Effective:

- Reduce expenses without compromising quality.
